

2025 CyberTipline Reports by State

While the majority of the cases submitted to the CyberTipline resolve outside of the United States, more than 1.9 million reports made in 2025 resolved to a U.S. state. CyberTipline reports resolving to the U.S. are made available to Internet Crimes Against Children task forces, state and local law enforcement or U.S. federal law enforcement. When the state is unknown, the reports are made available to federal law enforcement in the U.S. Additionally, a report referred to a single location based on where the content may have been uploaded can still have a nexus with other offenders or victims located in other states or countries.

The following is a breakdown of referrals and informational reports by U.S. state. It is important to note that CyberTipline reports are sometimes made available to more than one law enforcement agency. This may occur because a report contains multiple geographic locations for a reported offender and a reported child victim, or for a sender and recipient of CSAM. In these cases, NCMEC will make the CyberTipline report available to all relevant law enforcement agencies.
